

Waste Batteries and Accumulators Regulation 2009, Part 5: Producer obligations

As a producer of industrial batteries under the Waste Batteries and Accumulators Regulations 2009, we Maxell Europe Limited produce Lithium Manganese Dioxide, Lithium Thionyl Chloride and Lithium-Ion batteries. We are obliged to take back free of charge, waste industrial batteries supplied to an end user for treatment and recycling. We are required to do this in any calendar year we place new industrial batteries on the market.

If any of our customers or in certain cases other end users, require us to take back Industrial batteries, please contact Customer Services, telephone +44 (0) 1628 412022, email: batteryops@maxell.eu or in writing to Maxell Europe Limited, Whitebrook Park, Lower Cookham Road, Maidenhead, Berkshire, SL6 8YA.

We will agree the necessary arrangements for the return, proper treatment and recycling of the waste industrial batteries.

Please do not send or return batteries by post as this may cause a fire risk!

M. Ishiwata
Managing Director
